## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Applicant's amendments filed on 11/12/04 have been fully considered and are persuasive.

2. Claims 1-46 are allowable over the prior art of records.

2. The following is an examiner's statement of reasons for allowance:

Applicant's arguments filed on 11/12/04 on pages 12-13, the applicant argued that the cited references, taken singly or in combination, do not teach or suggest receiving a first configuration change signal via a first signal line and a second configuration change via a second signal line that is separate from the first signal line. Applicant argued that Craig discloses a bus bridge having a configuration input terminal and an output terminal, the bus bridge generating a first and second initialization signal on the output terminal in response to receiving a first and second configuration signal on said configuration input terminal, respectively. These signals are received on the same configuration input terminal, as disclosed by Craig, the first and second configuration signals are not received by separate storage locations via separate signal lines. These features indicated "a first daughtercard configured to assert a first configuration change signal and a second daughtercard configured to assert a second configuration change signal and wherein a storage unit including a first storage location for storing a state of said first configuration change signal and a second storage location for storing a state of said second configuration change signal, and wherein the first storage location is coupled to receive the first configuration change signal via a first signal line and the

second storage location is coupled to receive the second configuration change signal over a second signal line that is separate from the first signal line<sup>2</sup> in combination with other limitations as recited in independent claims and further in view of the specification and applicant's arguments. <sup>4</sup>

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
